EVALUATION OF INSTRUCTIONAL PROGRAMS

The superintendent is directed by the Board to implement appropriate methods for a continual evaluation of the District's curriculum, educational program and instructional processes.

The purposes of this continued evaluation will be:

1. To assess educational needs and provide information for planning.
2. To indicate instructional strengths and weaknesses.
3. To check on the suitability of programs in terms of student needs and community thoughts.
4. To show the relationship between achievement and the system's stated goals.
5. To provide data for public information.

The Board will rely on the professional staff to provide continuous evaluation of the educational program and instructional processes. The Board will rely upon the professional staff for such evaluation, or it may arrange for evaluations to be completed by outside agencies.

Appropriate research studies will be periodically reviewed to determine recent trends and developments in instructional evaluative techniques.
