FIRST AID

Schools are responsible for giving first aid or emergency treatment in case of sudden illness or injury to a student or a member of the staff. Further medical attention to students is the responsibility of the parents or guardians, or their designee, in case of emergency.

Each principal is charged with providing for the immediate care of ill or injured persons within his/her area of supervision. A school nurse, or other qualified staff member, will administer emergency aid.

In each school, procedures for the handling of such emergencies will be established and made known to the staff. Each school building and vehicle used for student transportation will be equipped with appropriate first aid equipment.

All employees are expected to be knowledgeable about first aid, and to know where first aid supplies are kept in their work areas.
