BUILDINGS AND GROUNDS MAINTENANCE

The Board recognizes the tremendous investment in school facilities, buildings, grounds, and equipment. It is further acknowledged that normal deterioration from natural elements and ordinary use will occur. However, with proper care and attention, the rate of deterioration can be arrested and repair costs held within reasonable limits. Therefore, the Board believes that a proper program of preventive maintenance is a requirement for efficient and economic building operation.

The superintendent, or designee, is directed to maintain a proper preventive maintenance program and include adequate funds to sustain this program in the budget recommendation. Provisions of this program should include:

1. Buildings and ground improvements and additions, as established by capital outlay line items approved in the budget by the Board.
2. An adequate custodial program for all buildings.
3. Improvement and maintenance of school grounds and fields.
4. Repairs to buildings and equipment and painting.
5. Determination of obsolete equipment.
