EPS Code: EEAC

District Code: B819

SCHOOL BUS SAFETY PROGRAM

The safe transportation of District students to and from school is to be of primary concern to school officials in the administration of the school bus program. All state laws and regulations pertaining to the safe use of school buses will be observed by drivers, students and District personnel.

The Director of Transportation, in cooperation with the principals, is responsible for developing and publishing safety rules to be followed by drivers and passengers, including rules of student conduct during transportation.

At least twice during every school year, each pupil who is transported in a school bus will receive appropriate instruction in safe riding practices, and will participate in emergency bus evacuation drills. The superintendent will establish administrative regulations and procedures to enforce this policy.
