EPS Code: FA

District Code: New

FACILITIES DEVELOPMENT GOALS

As the Board continually evaluates the effectiveness of its physical plant, it will strive to provide new and remodeled facilities that will offer the best possible physical environment for learning and teaching.

The Board aims specifically toward:

1. New buildings and renovations that will accommodate and facilitate those new organizational and instructional patterns that support the District's educational philosophy and instructional goals.
2. Meeting all safety requirements through the remodeling of older structures.
3. Providing such building renovations as needed to meet requirements on the availability of public school facilities to disabled persons.
4. Building design and construction that will lend themselves to low maintenance costs and conservation of energy. These two factors will also be given special consideration in the renovation of buildings.

Decisions pertaining to educational specifications of new buildings and those undergoing extensive remodeling will be developed only after the viewpoints of teachers, students, and parents have been sought.
