

PATTONVILLE SCHOOL DISTRICT

EPS Code: FBB

District Code: New

ENROLLMENT PROJECTIONS

The determination of school building needs shall be based primarily upon current and projected student enrollment. As such, enrollment projections will be prepared on a four-year basis under the direction of the superintendent, and will be reviewed and up-dated annually.

The projections will take into consideration the following:

1. School registration figures.
2. Trends in total community population.
3. Local birth rate.
4. Review of forthcoming changes in community planning and zoning.
5. Review of current and planned community land development, commercial/ industrial development and housing starts.
6. Rate and type of residential construction.

Whenever construction of new school facilities or the closing of any school buildings is being contemplated, the Board may authorize outside studies of population trends and school enrollment.

Adopted: June 30, 1981
Revised: October 24, 2000
