

PATTONVILLE SCHOOL DISTRICT

EPS Code: GBE

District Code:

SAFE FACILITIES AND CONDITIONS

The health and safety of school personnel, students, and visitors is of vital importance to the district. Through its interest in safety and its various policies pertaining to employees, the District will seek to insure their safety during working hours and assist them in the maintenance of good health. Employees who become aware of conditions which are unsafe or jeopardize the health or safety of employees, students, or visitors shall notify their supervisor. In the event the reported unsafe condition continues beyond a reasonable time period following notification of the supervisor, the employee [or PSNEA] shall have the option to take a written complaint to the third level of the grievance procedure.

The district may waive the ten (10) day timeliness requirement under Level III (e.g., 15 or 30 days) to permit the district time to make repairs. The time period will run from the date the employee notifies the supervisor.
