**PATTONVILLE HIGH SCHOOL**

**Disciplinary Probation**

When any student who is not sheltered by Public Law 94-142 accumulates ten or more days of "out-of-school" suspension or 15 or more combined days of "out-of-school" and "in-school" suspension, the Principal (or designee) will, in writing, request a conference with the parents and student to review school expectations and past behavior history.

The purpose of the conference will be to establish a cooperative effort between the school, home, and student for the purpose of outlining expectations and communicating possible consequences of continued unproductive behavior.

Following the conference, the student will be placed on disciplinary probation. Any student on disciplinary probation may continue to attend Pattonville High School provided they adhere to the written behavior/academic progress contract as established by the school administration and detailed at their conference with the parents and student.

- ◆ Should the student demonstrate productive, appropriate behavior and academic progress for a period of 60 school days during the probationary period, the student or parent may petition the Principal for removal from disciplinary probation. The Principal's decision regarding early return to regular student status after review of the student's progress will be final.
- ◆ Any student on disciplinary probation who commits a suspendable infraction or fails to follow the established behavior contract and make reasonable academic progress, will be recommended for suspension of up to 90 school days following due process procedures.
- ◆ At the end of each school year those students on disciplinary probation will have their record reviewed to determine either the continuation of disciplinary probation or a return to regular student status.

(Where the behavior of the student is chronic but not including major offenses, the Principal may consider assignment to the alternative school in lieu of suspension.)
