STUDENT PARKING - PATTONVILLE HIGH SCHOOL

Since the number of parking spaces are limited at Pattonville High School at the present time and the number of students requesting parking permits for their vehicles surpasses the available spaces, the following procedure is proposed:

1. Only students who have an authorized parking permit displayed on their vehicle may park on school property during the regular school day.
2. Students will be allowed to park in student designated areas only. (Main and/or back lot in designated parking spaces.)

Failure to comply with items one (1) and two (2) listed above, will generate the following actions:

First Offense: A warning notice will be issued advising the vehicle owner of a parking violation. (A stick/decal will be affixed to the side window notifying the owner that parking in this area requires a permit.) A letter will be mailed to the vehicle owner with a notification of a parking violation at the High School. In addition, the owner will be advised that second and subsequent parking violations will be resolved by ticketing by the St. Louis County Police Department.

Second and Subsequent Offenses: The violator's vehicle will be ticketed by the St. Louis County Police Department.

Adopted: February 14, 1989
