

**SCHOOL-COMMUNITY RELATIONS GOALS**

The Board recognizes that intelligent, informed public support of the School District is dependent upon full knowledge, understanding, and participation in the efforts, goals, problems, and programs of the District. The Board is also aware of its responsibility to provide the public with information and opportunities leading to participation in the establishment of programs and policies.

Therefore, the Board and the School District will strive:

1. To develop intelligent citizen understanding of the school system in all aspects of its operation
2. To determine how the public feels about the school system and what it wishes the school system to accomplish
3. To develop citizen and legislator understanding of the need for adequate financial support for a quality educational program
4. To foster public understanding of the need for constructive change, and solicit public advice on how to achieve educational goals
5. To develop programs in the District and in individual schools that will bring together home, school and community in meeting the needs of the children in the schools
6. To earn the good will, respect and confidence of the public with regard to school staff and services
7. To promote a genuine spirit of cooperation between the Board and community in sharing leadership for the improvement of the community
8. To promote public interest and participation in the operation of the school system

The achievement of these goals requires that the Board and the staff, individually and collectively, express positive attitudes toward the District in their daily contacts with students, parents, patrons, and one another. They must also make a systematic, honest, and continuing effort to discover what the public thinks, what patrons want to know, and to interpret the District's programs, problems and accomplishments to the public. Finally, they must take an active interest in the community, in working toward the improvement of both the educational programs and making the community a better place in which to live.

**PATTONVILLE SCHOOL DISTRICT**

**EPS Code: KA Page 2 of 2**

**District Code: B1001**

It is the responsibility of every employee, certified, support, and administrative, to promote good community relations for the schools, and for the educational betterment of the students.
